

HOW CAN I BE SUCCESSFUL?

*Ask questions when you don't understand! Working through your issues right away is so much better than waiting until they snowball. I'm more than willing to help you in class or after school (sign up on the calendar if you want to stay after). You can even tweet me questions in the evening—be warned, I go to bed early!

*Participate! Practicing your Spanish in class will help you improve. Do all activities, volunteer when you know an answer, and use your Spanish with me and your peers.

*Study your vocabulary! Knowing your vocabulary words makes the rest of the unit easier. A good way to practice is **Quizlet** (there is a website quizlet.com and an app for your phone) because you can make flash cards, play games, and hear the words spoken. Don't forget to come up with related words for extra credit on your quiz.

*Do your cuadricula! Doing your cuadricula is an excellent review for your test. I choose those specific activities to help you practice the grammar and vocabulary you'll need to know, so do them! Also, don't forget that it counts as **two** classwork grades—but you can turn it in early for five extra points ☺

*Turn in work on time! Failing to turn in an assignment on time will result in a deduction of **ten points** for every day it is late, up to five days. After five days I will not accept the work. You also have only five days to take missing tests and quizzes before they become Os.

*Come to class! Being in class everyday (mentally, not just physically...) is so important. You need to be here to get the information and to be able to practice it.

*Be considerate! Showing up on time with all your supplies, respecting me and our time together, being kind to your peers, and cleaning up after yourself will take you far in this class.
